

NASA Advisory Council Finding

Demonstrating Continued Improvement: Office of Education Broadening Participation

Name of Committee:	Ad Hoc Task Force on STEM Education
Chair of Committee:	Dr. Aimee Kennedy
Date of Council Public Deliberation:	December 7, 2017
Short Title of Finding:	Demonstrating Continued Improvement: Office of Education Broadening Participation

Finding: NASA's commitment to reaching underrepresented and underserved communities has been a long-term priority throughout the history of its STEM engagement activities. NASA should be sure not to lose sight of the role it has played, and should continue to play, in engaging, educating, inspiring, and employing underserved populations in the STEM workforce.
